

STEP 1: INPUT ESSENTIAL RACE INFORMATION

The Basic, Essential Data for the Races

Note: When adding or editing make sure all of the aqua fields have data, in correct format, before you Save or click "Go back" or you could lose the data. (If your browser has a "back" button use that instead of clicking "Go back". In Chrome use Alt+Left Arrow.) When you are finished editing a race you can just hit "enter" and the record will be saved. IMPORTANT: When inputting sample races put the letter "s" after the race number such as 1s, 12s, 3s etc.

The BEE icon is for duplicating a record. Then just edit the race and update the race number and other key information.

Race Date	2020-08-29	Race Date (format MUST BE YYYY-MM-DD)
Race Number	10	
Race Track	Zavodisko	In this field pressing the first letter of the name you seek will take you down the list to that letter
Furlongs	7.0000	For conversion: 1 mi. = 8 furlongs, 1/16 mi. = .5 furlong, 660 ft. = 1 furlong. You can also see the table and then return here.
# of horses in this race	10	
Ages	4	
Purse	50000	Put in number without \$ or comma
Claiming or Allowance?	Y	Either/Or
Race Notes	sample	

This input form is where you need to start because the Past Performances table is directly linked to this table and requires the basic data you input in this form in order for each race/horse to be included in the final computations.

STEP 2: INPUT PAST PERFORMANCES INFORMATION

Horse Past Performances and Current Race Data

Note: When adding or editing make sure all of the aqua fields have data, in correct format, before you Save or click "Go back" or you could lose the data.
(If your browser has a "back" button use that instead of clicking "Go back". In Chrome use Alt+Left Arrow.)
When you are finished editing a race you can just hit "enter" and the record will be saved.

The BEE icon is for duplicating a record. Then just edit the race and update the race number and other key information.
(Helpful hint: Pick the one to duplicate with a horse name low in the alphabet so that the horse drop down list loads fast).

1) Race Number	10	
2) Race Track	Zavodisko	In this field pressing the first letter of the name you seek will take you down the list to that letter. If your track is not in list you need to ADD IT
3) Post Position (Betting Number)	1	Gate starting position (is the order each horse is listed on the racing form)
4) Horse	Allaboutthedrama	In this field pressing the first letters of the name you seek will take you down the list to those horses. (For horse names starting way down in the alphabet they take longer to load. Once the list comes up you can use the UP/DOWN or PAGE UP/PAGE DOWN). If your horse is not in list you need to ADD IT and then reopen this page
5) Current Race Odds	31	Put in odds as a single number; i.e. 4 to 1 is 41, 20 to 1 is 201, 1 to 10 is 110, 2 to 1 is 21, etc. At least put in the morning race odds, then if you are able to find out current odds from the tote board then replace this number with the most recent.

Age

Numeric notation of the age in years of the horse who is running. In this case, SayHey CJ is 7 years old. All thoroughbreds are considered a year older January First of each year. Note: Recently DRF began adding a parenthetical notation of what month the horse was born.

Trainer

The trainer's name. In parentheses after the name, DRF displays the numbers of starts the trainer's horses have made so far this meet, the number of wins, the number of second place finishes, and the number of third place finishes, followed by the trainer's win percentage for the meet. The second set of parenthesis displays the trainer's number of starts, wins, and win percentage for either the previous or current year, depending on how far into the current year it is.

Medication

In this case, the L stands for Lasix, a commonly administered diuretic. Where state rules permit, horses may run on various medications. The letter "B" indicates the horse has been treated with the analgesic Butazolidin. Note: The "L" in reverse type in this space indicates the horse is running on lasix for the first time, which some handicappers feel is a valuable angle.

Tomlinson Wet Track Rating

This number rates a horse's chances for success on a wet track, based on his breeding. When a horse's mud rating is 320 or higher, it merits further consideration as a horse who could perform particularly well over a wet racetrack. This number can be particularly helpful the first couple of times over a wet racetrack, before the horse's preference for the mud is otherwise known.

Beyer Speed Figure

SayHey CJ earned a 94 Beyer speed figure in his February 15th race. Beyer Speed Figures are available exclusively in Daily Racing Form. Every performance by every horse in North America is assigned a number which reflects the time of the race and the inherent speed of the track over which it was run, and permits easy comparison of efforts at different distances. A figure of 95 denotes exactly the same quality of performance whether it was earned at Santa Anita or Suffolk Downs. Note: Beyer Speed figures are not available for races outside of North America; instead Daily Racing Form past performances carry Racing Post ratings, a highly respected provider of performance ratings for European racing. Racing Post ratings are on a different scale than Beyer
